

THE #1 AVIONICS SHOP FOR HELICOPTER OPERATORS

EXPERIENCE YOU CAN TRUST

Whether you fly a Robinson R66 or a Sikorsky S-76

A single ship or a large fleet...

The FAA has mandated ADS-B, Radar Altimeter, Flight Data Monitoring and HTAWS, depending on your type of operation.

Vortek Aviation works with helicopter operators to develop specialized avionics upgrade programs that are budget friendly and minimize downtime.

Call today for our No Surprise Proposal
